Project: ARV Warriewood Brook Retirement Village

Project Description

KAE undertook the Mechanical services design for this project, consisting of apartments, a community centre and a swimming pool.

Scope of Services

Mechanical

- Air-conditioning systems serving all rooms
- Air-conditioning systems serving common areas
- Mechanical ventilation generally, as required by the BCA.
- BMCS or Electronic controls to control HVAC systems
- Application of Environmentally Sustainable Design principles and systems, detailed by ESD consultant (as required).
